WINDOWS & DOORS

RUSTIQUE SASH WINDOWS

1. FRAMES ARE HINGED ON THE RIGHT AS STANDARD BUT CAN BE MADE TO OPEN EITHER WAY - PLEASE CONFIRM ON YOUR ORDER

Fairco offer a solution for when it is not possible to achieve a fire egress compliant opening with a standard sliding sash window. The side hinged system allows both sashes to easily open into the room giving an escape opening that is nearly the whole frame size!

All of Fairco's optional extras and glazing options (except for 'easy clean' tilt facility) are available on our specialist Rustique Side Hinged Fire Escape Sash Windows. Irish building regulations state that a fire egress compliant window must have a clear opening that is at least 450mm in width and at least 450mm in height and must also give a clear opening area of 0.33m².

FEATURES

- AVAILABLE IN WHITE, WHITE GRAIN FOIL, CREAM GRAIN FOIL, OAK FOIL AND ROSEWOOD FOIL
